SUN BEAMS

By WALTER M. BARRETT

We sincerely hope that in publishing the lengthy account of the meeting of the sanitary board of last Friday night that we have not again "wasted printing", but that the action promised by the group is forthcoming. The report indicates that the local board is ready to "take the bull by the horns" in bringing about better sanitary conditions and a more presentable appearance in town. The board is adopting the right attitude and by so doing should earn the full cooperation of the citizens.

Once more the death knell has sounded for the California border checking stations. It is too bad that those who apparently are determined to abolish the stations do not take more time to investigate more thoroughly the value of the stations as protectors of the state, instead of using them as a political football To the casual observer in the valleys or on the coast, the stations have little significance, but here in Truckee where daily examples of the good work accomplished by the stations is so apparent we should take the matter more seriously. It has been suggested that we appeal to the state chamber of commerce. That should no doubt, be the proper place, but with that organization taking a lead in the proposed abolition of the state border stations and even reporting that their removal had the full support of the chamber, it would be a waste of time. We will never be able to understand the attitude of the state chamber in the matter, but it becomes quite evident that the wishes of the local chamber carries little weight there. One thing is sure, if the stations are to be saved for the state, concerted effeorts must be made soon.

Despite the fact that the opening day of the trout fishing season here brought only disappointment to many it is conceded that there is no place in the entire state where better fishing may be enjoyed. Without the ful protection of the steam as needed and requested from the commission local sportsmen and the San Francisco Flycasting club have, through united efforts kept the stream well stocked, offering nimrods the best possible fishing under the adverse conditions.

Tomorrow night, Summit Lodge of the Knights of Pythias will celebrate its 59th birthday. Founded in May, 1879, the local lodge has not only survived the many setbacks and depressions, but has developed. This could have been possible only through untiring efforts of the leaders and cooperation of the members, who have full cause to be proud of their organization.

As summer nears and the Sierras take on an inviting appearance, our attention is directed to one evil that we escape during the winter—the itinerant peddler—that smooth talker with his persuasive manner, who will use all known tactics to prove that his wares are superior and less costly than the items obtainable in the local stores. Before you fall for the peddler's line, do a bit of investigating. It may save you money as well as preventing you from being duped. The best way to treat the peddler is not to listen. If he can only obtain your attention, he has won half the battle and his training will give him better than an even break to sell you something. Ask him if he has the sanction of your chamber of commerce. If not, then beware.

Expected Home—

Mr. and Mrs. Harold Langille are expected to return this week from Mexico City and other cities included in their vacation itenerary.

Return Here—

Miss Catherin Rossarini, accompanied by her mother, Mrs. Rossarini, returned from Oakland last weekend.

Returning Home—

Mrs. S. M. Richardson writes this week that she was in en route to Sacramento where she will remain for a few days before returning to Truckee.

In Hospital—

Mrs. George Markell is recovering from a sudden illness in a Marysville hispital. Markell who accompanied her to the home of her parents near Knights Landing returned here this week after being assured Mrs. Markell was no longer in danger.

From Washington—

Robert Lehman arriver in Truckee last weekend from Port Angeles, Washington.

Hope Dims For Border Stations, Senator Reports

State-Wide Action Necessary If Stations Are To Be Saved

SEAWELL TELLS STAND

Ingels Asks Meeting Of Committee To Take Action On Abolition

Unless a state-wide concerted effort is made to prevent, the California border stations, which have proven able guardians of the welfare of the citizens of the state, in apprehension of undesirables and criminals seeking entrance to the lucrative domain of California, are due for sacrifice on the political guillotine.

This disheartening word in contained in a letter from State Senator Jerrold Seawell, a candidate for the lieutenant governorship, who has opposed abolition of the stations since it was proposed several months ago whein Ray Ingels, director of the department of motor vehicles asked the state chamber of commerce to investigate the advisability of maintaining the stations.

The state chamber of commerce committee, headed by Harry A. Mitchell, and no doubt greatly influenced by the automobile clubs, seeking an "open door" policy in California to the motorists, issued a report, part of which follows:

1.—That the border registration stations be closed immediately and that funds and personnel made available thereby be transferred to the California Highway Patrol to supplement the activity of the Patrol in policing the public highways.

2.—That the registration of non-residents be discontiuned entirely and that those sections of the Motor Vehicle Code covering registration of non-residents be removed accordingly

In his report to Ingels, Mitchell further wrote:

It is urged that you give this report careful study and if it meets with your views, that you take the necessary steps to close the border stations. Further that you recommend to the Legislature the abolition of registration of non-residents. **In both these you have the full support of the State Chamber.**

Ingels has asked Senator Seawell to take the matter up in his interim committee, but has been advised by the senator that because of the present litigation in the supreme court over one-house committees it is not possible.

In writing the Truckee Chamber of Commerce regarding the situation, Seawell said:

I might advise your Chamber that the two automobile clubs of the state the Southern Club of California and the California State Automobile Association, along with the State Chamber of Commerce are putting up a very hard fight to oppose these checking stations. All indications point that if opposition state-wide is not developed to this program these stations will be abolished.

I am passing this information on for I as an individual will be unable to combat combined efforts of the organizations mentioned herein. If your Chamber is a part of the State Chamber, it might be advisable to register a complaint with them.

Visiting in Colfax—

Mrs. B. Riordean is visiting with friends in Colfax this week.

Attend School Session—

Mrs. George Kamp and Mrs. Dan Smith, members of the Truckee Grammar school board were in attendance at the trustees meeting in Nevada City last week.

The Chamber of Commerce——

luncheon will be held Monday at Goodfellows Cafe.

Constable in County Seat—

Constable William Bottcher was a business visitor in Nevada City on Monday.

Visit Here—

Mr. and Mrs. George Tonini and son of Carson visited here Sunday.

Aid For Needy In County Rises 81 Per Cent In Year

Case Load Goes From 297 to 540 From February To Febrary

Aid to the needy aged, blind, orphans and other unemployables in Nevada county increased 81.8 per cent in number of cases aided between February, 1937, and February, 1938 according to a study "Security for Unemployables," recently made by the California Taxpayers' Association

The total number of cases aided in the county went from 297 in February, 1937, to 540 in February, 1938, the association stated. The number of needy persons receiving aid increased 105.1 per cent, going from 175 to 359 during that period. Blind persons aided went from 9 to 12, or a 33.3 per cent increase. Orphans aided went from 61 to 102, or a 67.2 per cent increase, while the number of indigent unemployables went from 52 to 67, or a 28.8 per cent gain, the association found.

The welfare case load for unemployables for the state as a whole increased 36.1 per cent, according to the report.

PRECIPITATION HERE 23.19 INCHES OVER NORMAL FOR YEAR

With a total of 1.39 inches of percipitation recorded in Truckee during April, Forest Ranger H. I. Snider reports that the year's total is now 45.21 inches, 23.19 inches over the normal figure.

Since May 1, Snider reported, .33 of an inch of moisture has fallen in the four and a half inches of snow recorded for the first of the week.

The total snowfall for the season since January 30 is 307 inches, the ranger declared.

On Tuesday morning thermometers in Truckee dropped to 13 above zero.

LIONS GO ON RECORD AS SUPPORTING TRI-COUNTY PUBLIC HEALTH PLAN

The Truckee Lions Club last night unanimously went on record supporting the tri-county, full-time public health service for Nevada, Placer and El Dorado counties, as outlined here before the club last week by Dr. George M. Uhl, chief of the county health work for the state department of public health.

Further discussions relative to the feasibility of further investigation of a proposal to incorporate Truckee featured the meeting and while no action was taken or contemplated it was decided to contiune the investigation and at a future date to hold a public meeting where the idea may be aired pro and con.

Officer Visits Here—

Mrs. Mabel Keena of Auburn, the deputy grand matron of the Order of Easter Star of the 8th district, paid her official visit to Truckee Chapter No. 116, on Tuesday. A banquet at Goodfellows preceded the the meeting. Mrs. Huntley, also of Auburn, accompanied Mrs. Keena.

Cozzalio Guest—

Dr. J. Louridge from Sacramento was the guest of Dr. C. C. Cozzalio over the weekend.

Fair Luck Marks Opening Day Of Fishing Season

Few Limits Taken from Local Streams, But Many Are Large

ILARDI LANDS BIGGEST

Woman Angler Fortunate In Taking Local Awards With Limit

All kind of luck, good, bad and indifferent, marked the opening of the trout fishing season on the Truckee river Sunday. Few limits were caught, but many large fish were reported to make up for numbers.

Eugene Ilardi, employed at Loynd's Truckee Drug, boasted the largest fish of the day when he landed a six and a quarter pound German brown near Boca. Running Ilardi a close second was Dr. J. H. Bernard with a six pound, two ounce rainbow. Third place went to the veteran angler and many time champion, Dave Cabona, whose largest trout was a four and a half pound Loch Leven.

Dr. C. C. Cozzalio was credited with catching the first limit when his five trout, caught near Boca weighed over 10 pounds.

Angling less than an hour on the river Sunday afternoon netted Mrs. Mary Roquette the May 1 award given by the J. L. Lewis store for the best fish brought there on that date. She was presented with a leather bound basket and a case of beer.

MISS WALKER WINS HONORS TO COMPETE FOR RODEO PRIZE

Miss Marcella Walker, who is well known in Truckee and Lake Tahoe, has been chosen for the second time to compete as the representative of the Roseville Uunion High School and possibly Placer county for the title of Outdoor Girl at the Salinas Rodeo. The honor was given her because she held the highest scholastic record among the contestants.

Miss Walker resides in Rocklin with her uncle Traffic Patrolman Franklyn Walker.

TWO FORMER LOCAL MEN HELD FOR SUPERIOR COURT

Deputy Sheriff N. F. Dolley has received word from Nevada to the effect that Herman Corcio and Vernon Martin, former Truckee residents, have been held to answer to the superior court there on forgery charges.

The two men were arrested recently in Nevada City and questioned concerning a series of local robberies during the past year. There being insufficient evidence the pair were turned over to Nevada authorities on the check charge.

Five New Electric Stoves Go Into New Apartments

Dan Smith has purchased five new Westinghouse electric ranges from the local dealer, D. Cabona, for installation in the apartments nearing completion in the Rex Hotel. Smith proposes to make the apartments as modern as possible.

Truckee's Mean Thief Leaves Church In Dark

The title for the "meanest thief" in Truckee undoubtedly will go to the person who took the main light switches and all of the fuses from the switch box located inside the door of the Community Church.

After the Easter services, one of the switches and all the fuses were filched and the following week the remaining switches were taken, although the doors were locked. It is believed entrance was gained through a small window.

Guess Again To Be Presented Here By High School Class

Comedy Performance Will Be Offered By School On May 20

The annual senior class play for the local high school will move into its final rounds of rehearsal next week for the presentation of "Guess Again", on May 20.

The play is a delightful and sparkling comedy farce by Glenn Hughes and is produced here under special arrangement with the Row Peterson company.

The cast is under the direction of Miss Anna Marie Munro and consists of Jaunita Ogan, Douglas Barrett Robert Bowers, George Zorich, Eva Moro, Karl Kielhofer, Wallace Watkins, John Sabini, Frank Titus, Ida Stewart, Tina Gini, Mary Pierce and Florence Digesti.

The plot is concerned with the complications that arise when an eccentric British movie magnet, cast by Kielhofer, comes to Edgewater Inn in Southern California run by Mr. Henry Grimes, played by Robert Bowers. Bill Douglas, played by Doug las Barrett, is a college boy with more ideas than money who is staying at the failing hotel and hits on several publicity stunts that eventually are the making of the hotel.

Jaunita Ogan plays the part of a waitress with whom Bill is in love. Many amusing situations are depicted and the best efforts of the cast and production staff are being expended to make the play a thing to be remembered and enjoyed.

CARRIER PIGEON IS STOUT HEARTED; BATTLES STORMS

Carrying on in the traditional stout hearted mnaner of the carrier pigeon, Sierra Pride, so named because of his hard won battle with the elements during the storm over the Sierra passes on Sunday, was safe at the home of his owner, William Creegan of Sacramento after a flight of 122 miles from Reno.

The nine-months old bird was the only one of the 200 starters to struggle against, rain, wind and snow in the mountains and go home. The others were slowly straggling in on Tuesday to the Fort Sutter club.

The normal time for the flight is two and a half hours, but valiant Sierra Pride left Reno at 6:30 a. m. and entered his loft at 3:07 p. m.

Sanitary Board Promises Action On Local Problem

Threatens Prosecution For Violation Of Local Ordinance

PLAN WINTER SERVICE

Board Declines Responsibility For Home Conditions On Local Street

Following is a report submitted by officials of the Truckee Sanitary District following the meeting last Friday:

At its regular meeting Friday night the Truckee Sanitary District Board considered ways and means of preventing future undesirable conditions as existed during the last weeks in April when melting snows and high water levels caused the sewer lines to overflow in the vicinity of Church Street.

In the absence to date of any recommendations from the engineering department of the State Board of Health, the local Board considered two ways of reducing the possibility of sewer overflow. The first was to build a sewer line large enough to take care of flood conditions, which would entail an expenditure of several thousand dollars and a consequent bond issue in the district to meet the expense. It was pointed out, however, that even though the sewer line be cut through Front to River Streets, along Bridge Street, the high water ground levels in the vicinity of Trout Creek might still cause considerable trouble in filling the present sewer line near Church Street, which no doubt, due to its age, contains seep holes that allow a certain amount of surface water to enter the line. Elimination of the overflow conditions might still not be accomplished and an added load would be added to the sewer line extending down River Street from Bridge Street.

To build a sewer line large enough to take care of all flood waters would entail a bond issue of a size that is doubtful of approval by the residents of the district and is financially inadvisable in view of its uncertainty of eliminating the trouble.

The second proposal is to endeavor to eliminate all possible sources of surface water drainage into the sewer lines, such as surplus basement drainage, light hole inlets, and sewer line inlet leaks where same can be found. In this connection the Board would continue to go ahead with its original plan for improving the gradient and possibly the size of the short line of sewer which crosses over from the old swamp hole area near Trout Creek to the main line on River Street below the old Round House, which has given trouble in carrying maximum capacity since its installation, about 1925. Under this plan practically all solids would be conveyed to the septic tank during periods of high water, even though temporary flood conditions might still exist in the Church Street vicinity. It was pointed out that this plan would be the safest from the ultimate sanitary protection of the Truckee River domestic water supply, since the least water that can be sent through the septic tank renders the least chance of flooding the sewage over the settling ponds into the river.

Information was brought to the Board that those houses along Church Street that suffered from sewage backing into basements, during flood conditions, were victims of leaky and faulty sewer joints under the houses. The Board is not responsible for such poor systems that are not part of the district ownership and owners of such systems are directly responsible for any unsanitary conditions emanating therefrom, regradless of high water conditions in the main sewer lines.

During the April high water conditions, the Board spent considerable in trying to reduce the sewer inches of water, but little reduction in flow was noticed in the Church Street line due to high water levels near Trout Creek.

The Board reports having assisted

Elaborate Ceremony 59 Years Ago Witnessed Installation Of Knights Of Pythias Lodge

Fifty-nine years ago, Summit Lodge No. 54, Knight of Pythias came into existence with an elaborate ceremony which extended from 10 o'clock on Monday morning until 5 o'clock on Tuesday morning.

Tomorrow night with the public as their guests, the lodge will observe that occasion with a roll call and fitting program, at which Frank T. Dusterberry, grand chancellor will be the principal speaker. The affair will be held at Odd Fellows hall at 8 o'clock.

Under an 8-point heading in the Truckee Republican of May 7, 1879, is the following account of the first meeting of the lodge:

Forty-five charter members of Summit Lodge No. 54, Knights of Pythias were instituted last Monday afternoon and night by Past Grand Chancellor F. P. Dann. The ranks were conferred by Past Chancellor A. J. Ross of Spartan Lodge No. 37, at North Bloomfield and the following members of Amity Lodge No. 8 of Reno: F. A. Trasland, E. F. Reed, W. J. Gillespie, James T. Davis, W. D. Phillips, J S. Gilson, R. Smith, D. F. Myers, J. M. Flanagan, W. W. Coffin, Isaac Chamberlin and Pierce Evans. The work began at 10 o'clock a. m. Monday, and contiuned all night until 5 o'clock Tuesday morning. Amity Lodge is one of the finest Lodges on the Pacific Coast. Its coming to Truckee was, perhaps, the first instance on record of a lodge being honored by an invitation to institute a lodge in a sister State. Past Grand Chancellor Dann is one of the highest authorities on the Coast in matters pertaining to secret societies. The occasion was one of much social and fraternal enjoyment. The new lodge begins life under the most favorable auspices.

Officers elected at that initial meet as listed in the same issue of the Republican were headed by C. F. McGlashan, chancellor commander.

NEEDED SERVICE

Last week Dr. George M. Uhl of the state department of public health addressed members of the Truckee Lions club relative to the establishment of a full-time health service for Nevada, El Dorado and Placer counties, the cost to be shared by the three. It was unfortunate that so comparatively few in this immediate district profited by Dr. Uhl's instructive discussion as the proposed program is one of vital interest to everyone in the community.

A public health department, as the name implies, consisits essentially of an organization of well-trained, full-time personnel which can devote time and effort to the study and solution of health problems. The department would consist of a specially trained and thoroughly experienced physician, trained public health nurses, sanitary officers and a secretary or clerk.

This modern and highly efficient service, Dr. Uhl said, can be established and maintained at a sum no greater than that now being expended in the three counties for work which would fall upon the proposed department.

The urgent need for the service need hardly be mentioned as it is so obviously apparent. Examples where public health officials could bring about far better sanitary conditions and eliminate health hazards exist in abundance throughout the district. In endorsing the proposal, the Lions club did what each organization and individual should do wholeheartedly.

Editorially, in commenting on the suggestion, Editor A. G. Thurman of Colfax wrote: "There is nothing truer than that the prevention of disease and the preservation of the health of its citizens is the most important function of the state."

MOTHER'S DAY

This Mother's Day, is it a question of flowers, a box of candy, a form-letter telegram? Is it a matter of sentimentality, a sampling of rememberance, a short look back and then eyes front again?

Or is it something deeper, a one-day celebration of a companionship that runs through life like a fine silver thread, an annual birthday of something that began in a whispered lullaby, and sings on through the years?

Those mothers of ours! We like to be sentimental about them. We like to remember what they went through for us, how they understood us when we ourselves were at cross-ends, how they held their blame when we were unkind or unthinking. We like to season the present with fine pictures from the past, to bring back yesterday's mood with a Mother's Day rememberance.

ADVERTISE IN THE SIERRA SUN FOR RESULTS

SUNDAY, MAY 8, is Mother's Day. Long Distance will take your voice to her with face-to-face clearness. Every day is Long Distance day.

Politically Speaking

By Jack Welter
United Press Staff Correspondent

SACRAMENTO, May 5.—(UP) — Seven years of alternate depression and prosperity have sent California's cost of government soaring to a point just a little short of double what it was for the fiscal year 1930-31. .....

An annual report compiled by State Controller Harry B. Riley showed that only in one year of the last seven—the 1932-33 fiscal period of the Rolph administration—did the state expenses take a downward turn That year they were reduced from $133,291,327 to $122,310,011.27 for a net decrease of 8.32 per cent.

Offsetting this temporary relief, however, expenditures surged back the following year, showing an increase of 33.91 per cent from the 1932-33 figure.

From 1933-34 on costs have mounted each succeeding year, 2.87 per cent for 1934-35, 18.88 per cent during 1935-36 and finally 8.30 per cent during 1936-37. Since the current fiscal period does not end until June 30, no conclusive figures are available.

The 1936-37 advance, however, carried the total cost of state government to $216,965,801.38, approximately $30,000,000 short of double the financial outlay for the administration of Governor C. C. Young.

Riley said the major factors contributing to the $16,637,740 increase in the 88th fiscal year ending last June 30 were highway expenditures, which advanced $7,642,461 over the previous year; appropriations to the cities and counties, up $5,193,771; old age pensions, up $1,908,559; education up $1,724,,050, and interest on registered warrants, $940,381,

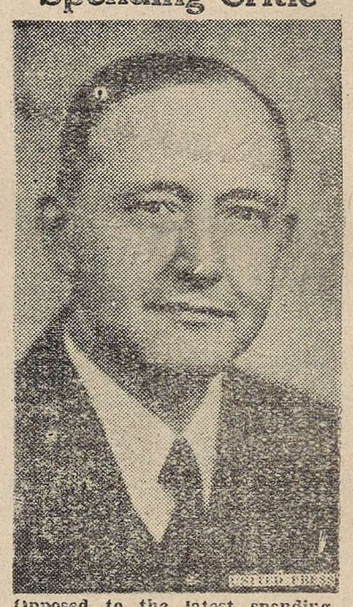
Riley said the $5,193,771 ienrease in apportionments to counties and cities came from increases in certain revenues over the preceding year as follows: liquor licenses, $2,073,646; gasoline tax, $1,585,748; motor vehicle licenses and fees, $1,630,334. A drop in delinquent payments on former bus and truck taxes carried that item $95,958 below the total for the year before.

Education costs mounted in all brackets with the exception of the elementary schools, where expenses ran $264,848 below those for 1935-36 This reduction, Riley said, was attributed to a declining birth rate.

High schools cost $1,292,989 more than for 1935-36, University of California and Hastings College of Law, $396,758; vocational education and rehabilitation $198,911, while all other classifications of schools were $100,240 more expensive.

Riley's report, it it attracts the notice of Gov. Frank F. Merriam's campaign opponents, may show up during the fall elections as a rebuttal weapon against administration claims of efficiency and economy in government, which is one of the incumbents' present prides.

Spending Critic



Opposed to the latest spending programs of President Roosevelt is Charles A, Sprague, publisher of The Salem Statesman, who has announced his candidacy for governor of Oregon on the Republican ticket. He urges stricter accounting of government funds, greater recuperative aids for private enterprise.

Congressman John Dockweiler, a Democratic gubernatorial aspirant, took time out before returning to Washington, D. C., after a brief trip home, to drop a few observations on politics and make a couple of campaign speeches.

Dockweiler emphatically declared he never will go for Central Committee Chairman Argyle Campbell's proposal for a statewide party conference to narrow the field of six Bourbon hopefuls. Herbert C. Legg another of the six, previously declared an equally firm determination against such a proposition.

FREE WATER SOON TO BE THING OF PAST FOR TAHOE

TAHOE CITY, May 5.— Residents of Tahoe City will no longer enjoy the luxury of free water from June next on.

The Lake Tahoe Development company has plans under way for the sale of the water system to George R. Bliss, Henry F. Droste and possibly other co-owners, whose names are as yet unknown.

Since 1900 water has been supplied free from the three 10,000 gallon tanks located a short distance from the section served. Tentative plans cal lfor a $2 fee per month of $18 a year. This is one of the few localities on the lake where running water may be secured the year 'round, most of the newer tracts and subdivisions having only summer service or approximately six months of running water.

GARAGE AT KNIGHT ESTATE ROBBED OF GROCERIES, PARTS

TAHOE CITY, May 5.— A phone call from Johnnie Almquist, assistant caretaker at the Lora Knight estate at Emerald Bay, disclosed that their garage on the highway at the entrance of the estate had been entered one night last week and the contents of their machine stolen. Provisions valued at around $40 just purchased in Reno had been left in the car to be taken down the hill the following morning and the garage was locked. In the morning it was discovered that not only had the thief taken all the groceries but the generator off the car as well. No trace of the stolen articles had been found.

ANGLERS MEET WITH ONLY FAIR LUCK ON OPENING DAY

TAHOE CITY, May 5.— The fishing season opened at Tahoe on Sunday last, but rain and light snow were falling and fishermen did not exactly enjoy their initial attempts. The weather would not have mattered had prize catches been the order of the day, but this was not the case.

Dr. C. B. Pedersen, who never misses the opening day at Tahoe came home with an empty basket as did many other expert anglers of Tahoe. The fish simply did not appear to be at home, or hungry, or one bit interested in the fanciest bait.

Among the lucky fishermen who got limits were E. H. Pomin of Tahoe City and his week end guest Joe Rochel of Piedmont, Stanley Pomin of Pope's Estate and H. C. Woolley of Reno. The quartet took around 11 pounds of fish near Tallac which ranged from two to six pounds

Charlie Swanson caught two silver trout in Sunnyside harbor at day break, each weighing two pounds.

Only Lake Tahoe and the Truckee rive are open for fishing, but opening day was not what it should have been for local sportsmen due to the extra late spring.

NAPA MAN TO OPEN KNOX GROCERY AS SALE CONFIRMED

TAHOE PARK, May 5.— The grocery store formerly operated for many years at Tahoe Park by John Knox was sold several months ago to Paul R. Crandall, Napa groceryman.

Crandall, his wife and son, Kenneth 5, have arrived at Tahoe and are in the process of remodeling and refurnishing the entire store. A full ine of selected groceries, fruits and vegetables, with other commodities demanded by summer trade, will be obtained for the opening, estimated some three weeks distant.

Crandall has been a grocer for 20 years and is thoroughly confident that his new cash and carry store will fill a long-felt want in the community.

A new butcher shop is being modeled and a butcher will arrive in June. They will continue service at the fountain, where sandwiches and light lunches will be served.

The property embraces several rental cabins and an oil station, all to be operated this summer. Knox will spend several weeks here in May and will introduce the new owners to his many old and loyal friends.

Mr. and Mrs. R. C. Chestnut of Napa are guests of the Crandalls over the weekend, Chestnut engaging in the sale of real estate in the Tahoe Park region during the summer. He engineered the sale of the Knox Grocery to Crandall as well as the sale of the property across the street to Theodore Schleute of Oakland who last year erected five duplex summer cabins.

Thermometers on Monday night at Tahoe registered 16 above zero Clear skies anr sunshine replaced the rain and snow.

TAHOE MAN HELD AS OFFICERS MAKE PROBE OF THEFTS

TAHOE CITY, May 5.— Donald Harger, who acted as caretaker at Waleswood, a cottage resort in Tahoe Park district, was arrested by Constable Harry Johanson of Tahoe in Reno on Saturday and taken to Auburn where he is being held for investigation pending a hearing on Thursday.

His companion who stayed with him at Tahoe part of the winter, H. P. Swain, was arrested in Berkeley last week and released on $1000 bond.

Both are suspected in connection with a series of local robberies.

Further information was being withheld by local officers pending the hearing at which time charges will be aired and perhaps more arrests made.

Constable Harry Johanson and Deputy Sheriff Charles Swanson have been active for several weeks investigating the breaking into and robbery of local homes in this district.

VARIETY OF WEATHER VISITS TAHOE AREA

TAHOE CITY, May 5.— Rain, snow and wind have visited the Tahoe region intermittently since Friday slowing down tourist travel over the week end and dampening the spirits of local residents who yearn for a permanent touch of spring.

Precipitation was .27 of an inch with an other inch of snow being added to the fall. The lake stands at 6226.53.

On Sunday W. A. Simmonds, water master at Tahoe for the Truckee-Carson Irrigation District, tested the snow at Tahoe City for density. The measurements proved the water content to be 54.6 per cent, more than half, with the pack in this district averaging 37 inches.

Tahoe Ramblings

(By SWANEE)

Mrs. Stella Watson of Tahoe City escorted and drove down to Roseville on Sunday 12 local school children who participated in the annual music festival staged in that city this year at the high school. Mrs. Sam Goss of Lake Forest transported two more. Rain forced cancellation of the outdoor Maypole dances and festivities were held in the large school auditorium. The group after a pleasant visit, despite the downpour, arrived home around midnight. Many who had originally planned to go remained at home because of the inclement weather.

The Senate in Washington, D. C., on Friday last confirmed the appointment of Mrs. Janet Watson of Tahoe City as postmaster here for another four years. On May 13 Mrs. Watson will have completed her 25th year in her present position at the lake. We believe congratulations ar strictly in order.

Mr. and Mrs. C. O. Valentine have arrived at Tahoe to prepare their inn near Tahoe Tavern for a busy summer season. They enjoyed the winter months in southern California.

Tahoe's new community center building is suffering a temporary setback due to the temperment of the weather man. Mr. and Mrs. E. L. Oliver of Piedmont last week sent in a generous donation towrad the building fund.

Condolences are offered the J. L. Debendetti family of San Mateo this week. Their nephew, Virgil Giannini who often vacationed with his family members at the lake, was only 38 when he died in San Francisco. The funeral was held on Monday.

Mrs. D. M. Brodehl in reported recovering satisfactorily in a Stockton sanitarium following an operatio several weeks ago and is anticipated home this week by her family.

D. M. Brodehl, Tahoe mail man, i visiting in Seattle where he is having a new boat construted for his mail route in the north. He was accompanied by a son, Ewald R. Brodehl of Stockton, who will take charge in Seattle later.

MANY ATTEND SKI MEET AT TAHOE; HENRY HONORED

TAHOE CITY, May 5.— A large crowd attended the ski club meeting held on Friday evening at Tahoe Inn. President Carl Bechdolt, Jr. presided. During the evening he presented Past President Joe Henry with a Lake Tahoe Ski club pin, given all ex-presidents upon retiring. Mr. Henry expressed his deep appreciation for the gift and his gratitude to all the members for the cooperation so willingly and efficiently given during his term of office.

Mr. and Mrs. Carl Bechdolt, Sr., were hosts to the group, serving hot coffee, chocolate and doughnuts later in the evening. Frank Slater of Tahoe and Ben Winslow of Truckee entertained the gathering with motion pictures taken during the winter. A number of funnies were added as spice to the program.

A directors meeting will be held at the Henry's home on Friday night

TAHOE CITY, May 5.— Mrs. Everett Prusso and sons, Donnie, Ray and Sherwood, accompanied by her brother in law, Oscar McKamey of San Leandro, arrived from that city on Sunday afternoon to reopen Prusso's Forest Inn on Ward Creek. Prusso is now in southern California and will join the family around the end of May. A number of friends and neighbors dropped in to welcome them home.

Maybe you don't believe it, but there are

TWO MOTORS IN YOUR CAR

Associated Aviation Ethyl gives you **ONE**, *so superior in performance that you'll never drive the other again.*

ONE that gives you all the power built in at the factory
ONE that swings you in and out of traffic easier
ONE that is smooth and quiet under all driving conditions
ETHYL
ASSOCIATED AVIATION ETHYL
ASSOCIATED LUBRICATION
ASSOCIATED

To be doubly sure you are getting every last bit of power—have your car Motor-Checked. Your car dealer—properly-equipped garages—and your Associated Motor-Check Laboratory can all give you this factory-recommended service. Ask your Smiling Associated Dealer about it.

TIDE WATER ASSOCIATED OIL COMPANY

PROVE IT! WITH ONE TEST OF ASSOCIATED AVIATION ETHYL

You'll switch over to that *better motor* when you switch over to Associated Aviation Ethyl. You'll find —regardless of what gasoline you have been using— that this true aviation fuel boosts performance immediately, amazingly.

That's because Associated Aviation Ethyl is built after aircraft specifications—the *only* true aviation fuel you can buy for your car. It mixes instantly and in scientific exactness with the air in your carburetor —the dry vapor gets to the cylinders faster in ready-to-fire form. At the slightest command this better, more powerful motor (which you never knew you had) delivers performance you never expected from your car. Prove it yourself—fill up with Associated Aviation Ethyl today.

DON FRAZIER WINS MT. RAINIER RACE

TACOMA, Wash., May 5.— (UP)— Don Frazier of the Washington Ski club Sunday won the silver skiis downhill race on Mt. Rainier.

Frazier's time was 6:12.3. Hanes Schroll of Austria was second with a time of 6:15.4.

NEVADA'S OLDEST GOVERNOR IS OVER 99 YEARS OF AGE

CARSON CITY, May 5.— R. K. Colcord, Nevada's oldest living governor, has celebrated his 99th birthday.

He is believed to be the oldest living exgovernor in the nation.

The former governor enjoys good health for his years and is quite active physically and alert mentally.

Newspaper Advertising Still Most Effective Media, Expert Declares

James G. Stahlman, president of the American Newspaper Publishers Association, told the New York Advertising club recently newspapers have sold and will continue to sell more merchandise than any other medium yet devised.

He branded as "silly" the views held by some advertisers that the public is losing its interest in the press and turning to other media for its information.

"The press is still the most powerful agency of opinion in America," he is quoted as saying.

U. S. AIR MAIL 25 YEARS OLD NEXT WEEK, IS SUCCESS

Alfred Lord Tennyson, in his poem "Locksley Hall" visioned the sky filled with commerce 61 years before Oroville Wright lifted his mechanical experiment into the air at Kitty Hawk, Carolina.

For I dipt into the future,
As far as human eye could see
Saw the vision of the world
And the wonder that would be
Saw the heavens filled with commerce,
Argosies of magic sails,
Pilots of the purple twilight,
Dropping down with costly bales
Alfred Lord Tennyson, 1842.

In spite of the prediction of this great poet, it is doubtful if, not so many years ago, anyone would have believed that in time to come, letters could be delivered three thousand miles away, less than 24 hours after they had been mailed. Even after the epochal flight of Oroville Wright and later successful flights of early pioneers of aviation, the general public skeptically maintained that although man-made birds might be of some use in warefare, they would be impracticable for use in a commercial venture.

New facts developed in research and tests eventually dissipated the most stubborn prejudices. The pioneers of aviation went steadily ahead with their inventions until at last they had wedded the nation to a new handmaiden of progress—the United States Air Mail Service.

Next week will mark the silver anniversary of the air mail service in the United States. It seems incredible that the vast air mail system in our country today could be but 25 years of age. It was on May 15, 1918, that the first practical test of air mail transportation was made when an experimental route was set up between New York City and Washington, D. C. The Post Office Department had the cooperation of the Army Air Corps and for a time only army fliers were used. Later the postal department took over the line exclusively and hired civilian pilots.

Short routes proved too costly and in 1921, a route was established between New York and San Francisco, the planes flying only during the day. At night the mail was transferred to trains and back to planes at daybreak.

This system was also due for only brief duration and in 1923, a test trip was made from San Francisco in 26 hours and 14 minutes, with only two short stops to change planes and pilots and to refuel. Beacons were installed between Chicago and Cheyenne for a distance of 100 miles so that no interuption was experienced. On July 1, 1924, the regular transcontinental mail service was inaugurated over the longest air mail route in the world and a year later the installation of beacons had been completed between New York and Chicago and some time later the band across the United States was completed.

Over the 32 routes now in operation planes fly 190,000 miles daily.

PLANS FOR BOCA DAM BUILDING ARE UNDER DISCUSSION

RENO, May 5.— Plans for summer activities at the site of Boca Dam, $1,000,000 upstream storage project on the Truckee river, were discussed in Reno this week by the representatives of the bureau of reclamation, the Condon Construction company of Omaha, contractors on the job, and the Lord and Bishop company of Sacramento, sub-contractors.

A small crew of men is now employed at the site in preparation for resumption of actual construction as soon as snow and weather conditions permit.

The diversion tunnel is being cleared and equipment being set up.

SIERRA CLUB PLANS LONG SKI TRAIL OVER MOUNTAINS

SAN FRANCISCO, May 5.— Nine Sierra Club members from the San Francisco bay region last week were scheduled to start marking a 200-mile ski train from Johnsville, in Plumas county, to the Yosemite Valley.

Heading the group treking over the deep Sierra snows is Bestor Robinson, an Oakland attorney.

Eventually the ski enthusiasts are hoping to establish a string of 30 shelters over the route and the present expedition is partially for the purpose of picking locations for the shelters.

WILL OPEN ROAD

Efforts are being made to open the Placerville road over Echo Summit, reports of the Touring Department of the National Automobile club say. Cabin owners have been eager to check the condition of their mountain homes after the strenuous winter.

The road will soon be open to Lake Tahoe.

Visits Truckee—

G. D. Oliver of the Hobart Estate company was a Hobart Mills and Truckee visitor Wednesday and Thurs day last week.

TAHOE DISTRICT PERSONALS

Miss Beccy Brodehl is visiting with Mrs. E. R. Brodehl in Stockton for a few days.

Miss Ann McDonald of Stockton, accompanied by Mr. and Mrs. Keith Deegan of that city, enjoyed a jolly weekend at the Timberland Tract home of Miss McDonald's sister, Mrs. John Reedy of San Francisco.

Mrs. Valentine Woodhouse and two children, Doris and David, of San Francisco returned to their home last week after a vacation at the V. S. McClatchy home in Sunnyside.

The Tahoe branch of the Placer County library will be located at the A. M. Anderson home above Atherton's Cash and Carry in Tahoe City from now until such a time as the new library will have been completed in the new community building.

Joe Re, local landscape gardener, suffered a light heart attack and was rushed to his home on the Truckee river where Dr. C. B. Pedersen was called to attend him on Saturday. He is reported improved.

THE PRICE OF Liberty

A STERN PRICE was paid for this liberty which you enjoy in America. Your fathers bought it by fighting for it. The price they paid was struggle, hardship, and even blood. The price which you must pay if America is to remain a democracy and if liberty is to be passed on to generations of Americans yet unborn is unremitting watchfulness. You are unable, as an individual, to keep a constant personal watch on the actions and policies of those whom you have elected to govern you. You are unable, as an individual, to reach the ear of government with criticism, approbation, or suggestions for official conduct . . . but, in your newspaper, you have a representative who assumes the responsibility of civic watchfulness for you. You have a voice to which all must listen. No candidate, no official, no political leader can long survive under the constant scrutiny of a free press unless he performs his trust with competence and with honesty. Freedom of the press is your greatest assurance that America shall remain free. The welfare of your newspapers is your welfare and the welfare of American freedom.

CALIFORNIA NEWSPAPER PUBLISHERS ASSN. INC. REG. U.S. PAT. OFF.

This is the second of a series of twelve institutional advertisements sponsored by the California Newspaper Publishers Association and derived from an address delivered at Riverside on January 22nd by Dr. William B. Munro, of California Institute of Technology.

SANS SOUCI OF THE NEW WORLD

HERE are the ruins of a Palace which was the setting for one of the most fantastic courts the world has ever seen. It is the Palace of Sans Souci, not far from Cap Haitien in Haiti on the route of the weekly 16-day cruises to the Caribbean. It was built by Henri Christophe, a black slave, who rose to become "King" of Haiti.

In this Palace dwelt the "King," his Queen, an ex-scullery maid, the Prince Royal and the Princesses Amethyst and Athenaire, surrounded by a court that outdid in pomp and regal ceremony the courts of Europe. There were black-skinned Dukes, Counts, Barons, Grand Marshals, Chamberlains, scores of Knights of this and that, Professors, Physicians, Apothecaries, a host of Pages and Heralds—all gorgeously costumed in royal silks and waving plumes.

The Queen and the Princesses dressed in the latest styles from Paris and wore jewelry and diadems flashing with precious stones which outshone the crown jewels of the Kings and Queens across the sea—for the black "King" was exceedingly rich. Not all of his fortune, however, was squandered in this fashion. He deposited in a bank in England several million dollars, so that in the event that his kingdom should fall, his family would be provided for. And it was to this fortune in Europe that his wife and daughters fled, when the "King," fearing that his throne was toppling, sent a silver bullet into his body.

POLITICALLY SPEAKING

Continued From Page 2

Thus there appears little hope for any such convention—or any accomplishment if it is called—since State Senator Culbert Olson, Daniel C. Murphy and William H. Neblett are said to be definitely unapproachable on the subject.

This leaves only J. F. T. O'Connor who hasn't expressed himself flatly in public.

Dockweiler's most proud contention is that he can beat Olson in Los Angeles County.

Which may convey the impression that Olson is regarded as a plenty potent candidate at this point.

FISHERMEN WARNED OF TRAFFIC DANGERS BY CHIEF OF STATE PATROL

SACRAMENTO, May 5.— With the California fishing season open, Chief E. Raymond Cato of the California Highway Patrol has issued some suggestions to supplement state regulations for anglers.

The chief's suggestions are these:

1.— Don't drive too fast in an effort to reach your favorite spot. It is better to have fish wait a little than for yuo to become involved in a traffic accident.

2.—Don't drink and drive; and if there has been any drinking in your fishing party, be certain that someone who hasn't participated in it drives on the trip home.

3.— Remember that the fishing season increases the flow of traffic on the side roads which otherwise would be little used, and that you must be particularly careful of traffic hazzards increased by this augmented traffic.

SACRAMENTO, May 5.—(UP) — Gasoline sales in California during March were considerably less than in the like month a year ago, board of equalization officials reported in revealing a 3-cent per gallon tax amounted to $4,057,297.05.

HERE, sir, is the bright particular star of the automotive year: a car to make you proud and happy—you can prove that anywhere on the highway these bright May days.

In it, you can know *luxury* in your travels and still not over-strain your budget!

Fact is, you feel like a million just *sitting* in this Buick!

And you know you're commanding the "tops" in power the first time you give its eager DYNAFLASH engine the gun!

At the wheel you feel the buoyant steadiness that is TORQUE-FREE SPRINGING'S special gift to motoring—the firm, fleet roadability of a car that's beautifully poised in all its going.

There's no "hop" on this fast one. It doesn't "gallop" or bounce or pitch.

Its soft stout *coiled* steel springs let the wheels follow the road—rise to the swells, dip to the hollows—yet pass none of that lively up-and-down on to the body.

You travel level as a straightedge, thrill to turbine-smooth power that's quick as lightning—know a kind of travel-comfort that neither road nor weather mars. Yet what are the facts on costs?

This great straight-eight actually costs *less* than some sixes! Price almost any other car, and by the time you've added in the extra values included in Buick's figures, you've paid for the matchless performance only Buick can give you!

So don't sit idly wishing for a star! Reach up—get this one! We're ready to show you any day it costs less than you think.

"Better buy Buick!"

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

SANITARY BOARD PROMISES ACTION

Continued From Page 1

the garbage collector in cleaning up the alley back of the Front Street business row in those areas where businessmen have paid for garbage collection. Those who have not patronized the garbage collection system will need pay for the cleaning and hauling themselves.

It was also pointed out that in the future, after the district incinerator has been constructed, there will be no excuse for such alley accumulations of filth during deep snow conditions, since the trash and garbage can be hauled during the entire winter, even though it may need to be packed out the front door to a truck as is done in many other towns. The California State Board of Health will aid the local Board in seeing that prosecutions are made where people promiscuously throw garbage and other filth into the back streets as well as the front ones.

Local Sanitary District Ordinance No. Four specifies that garbage must be placed in regular garbage cans and it is the intention of the Board to see that the ordinance is enforced. There is no excuse now for garbage being thrown in alleys and back yards when there is a regular garbage collection service available.

Truckee Sanitary Board,
By R. A. Tonini, Pres.
G. E. Hofmann, Sec'y.

Visit in San Jose—
Mr. and Mrs. E. C. Murray of Hobart Mills returned home Sunday after a weeks visit with relatives in San Jose and Standard. They were accompanied home by Edwin Murray, Sr., father of Mr. Murray who has been spending the winter with his son, A. D. Murray and family at Standard.

Sanders is Visitor—
Joe Sanders was a Truckee visitor Saturday and Sunday from his home in Sacramento.

Here from Florida—
C. C. McAllister, formerly of Hobart Mills, who now makes his home in Florida, visited with friends here last week.

Here from Roseville—
